

GJL Prima Day

The 16th September 2011 is one of the key dates in the project CC. This day was organized by young leaders as their first solo event called GJL Prima Day. The project was prepared for our youngest students. The main idea was to connect this special event with another activity which has been organized by our school for several past years called Prima Club.

Everything went perfectly according to the prepared plan; the weather was amazing so walk around the school was perfect. After coming back to school, an extraordinary program started. Students were divided into groups. We wanted to give them the chance to know each other by playing games, doing adventurous activities and exercises for relax.

Young leaders together with our new students spent beautiful afternoon full of games and funny entertainment. The climax of the event was a game called Treasure hunt.
