

## Liverpool CC meeting

In May 2011, our school joined the Connecting Classrooms project, one of the international projects of the British Council. As the project is particularly based on the involvement of students into decision-making and increase their interest in improving conditions at school.

In the month of November the international meeting of young leaders and coordinators was planned in Liverpool. Organizers of the project gave students a chance to participate in planning of the internationally successful project. Representatives of four countries -Great Britain, Germany, Serbia and Slovakia met there.

The main aim was to prepare a plan for the second year of the project and become familiar with the situation in the schools of all partner countries. By simple and funny tasks, we collected ideas and interesting suggestions, from which we put together a complex activity for the next year. Our school was successfully represented by Kristina Christozova on this international meeting.
